Buy once. *Use forever.*

Standard licenses are perpetual and include a 1-year maintenance plan with free upgrades and email support. Every license covers both libraries: SelectPdf.Universal, our new flagship for Windows, Linux and macOS on Apple Silicon, and the classic Windows library. From \$499 for a Single Developer license. OEM tiers lift the deployment-machine cap; Enterprise tiers lift the developer cap.

Already a customer? [Renew your maintenance plan.](#)

01 / SINGLE DEVELOPER

Single Developer

1 developer · 1 deployment machine.

\$499 one-time

perpetual · 1-year maintenance plan included

- + 1 developer
- + 1 deployment machine
- + Free upgrades for 1 year
perpetual license – never expires
- + Both libraries
SelectPdf.Universal + classic
- + Email support · 1 year

◆ ALL LICENSES INCLUDE Perpetual license · 1-year maintenance plan · Free upgrades · Email support

Prices in USD · taxes (e.g. VAT) added at checkout

🏠 LICENSE MODEL

How licensing *actually works*.

Two axes — how many developers will use the library and how many production machines will run it. Pick the smallest tier that fits both, or grab an OEM tier when deployment count is unbounded.

DEV

Per developer

A developer is anyone on your team who writes code that calls into SelectPdf. Each tier includes a developer count — Single, 5-Developers, or unlimited (Enterprise).

DEPLOY

Per deployment machine

A deployment machine is a production server where the library runs. Standard licenses cap deployments (1, 10, or 100). OEM licenses lift the cap entirely.

OEM

Unlimited deployments

Pick an OEM tier when you need to ship the library inside your product, or when you cannot easily count where it will be deployed. Same developer count, no machine cap.

PERPETUAL

License never expires

Every standard license is perpetual. The 1-year maintenance plan covers free upgrades and email support. After that, the version you bought keeps working — renew only if you want new releases.

Maintenance plans

FREE UPGRADES & EMAIL SUPPORT

1 YEAR Standard license Every license on this page ships with a 1-year maintenance plan included — free upgrades and email support. Included above	3 YEARS Buy with 3-year maintenance Lock in three years of upgrades and support up front. Special bundle pricing — pay once, no renewal needed for three years. See 3-year offer →
5 YEARS Buy with 5-year maintenance Five years of upgrades and support bundled into a single purchase. Best for teams with long procurement cycles. See 5-year offer →	RENEW Already a customer? Renew the maintenance plan on a license you already own — 1 year, 3 years, or restart it after expiration. Renewal options →

What every *license includes*.

No metered tier. No upsell to unlock features. Every standard license is perpetual, ships with a 1-year maintenance plan, and lets you keep using the version you bought — forever.

BOTH LIBRARIES	SelectPdf.Universal and the classic library One license covers SelectPdf.Universal, our new flagship for Windows, Linux and macOS on Apple Silicon, and the classic Windows library for .NET Framework 2.0 and later. The same license key activates either.	INCLUDED
PERPETUAL	Perpetual license Every standard license is perpetual — once purchased, the version you have keeps working forever, with no kill-switch and no expiry.	INCLUDED
MAINTENANCE	1-year maintenance plan Free upgrades to every new release for 12 months, plus email support for the same period. Bundles for 3 and 5 years are available.	INCLUDED

OEM	OEM rights (OEM tiers only) Unlimited deployment machines and the right to embed SelectPdf inside the product you distribute. Available on Single Developer OEM, 5-Developers OEM, and Enterprise OEM.	OEM TIERS
RENEW	Maintenance renewal (optional) After 12 months you can renew the maintenance plan for another year — or skip it and keep using your current version. Renewal is never mandatory.	OPTIONAL

◆ YOU'RE HERE — .NET LIBRARY

Perpetual. One-time.

Best when you generate PDFs on-premise on your own .NET servers, want a license that does not expire, and would rather not send documents to a third party.

◦ ALSO AVAILABLE — ONLINE API

Monthly or annual.

Best when you would rather call a hosted REST API than install a library — and want a plan priced by conversions per month, with two months free on annual.
